Interiors

Smart and
seamless storage
to suit any space.

All of our interiors are made bespoke to fit your storage needs, and manufactured at The Sliding Door Wardrobe Company factory and showroom at Team Valley.

Our wardrobe interiors are made from 18mm heavy grade board with chromed steel hanger bars. Drawers come in any width from 300mm wide and any number of drawers up to eight high, with soft close function as standard. They are constructed with metal sides and 18mm bases making them extremely durable. They are then finished with a pressed rounded front.

All interiors come as standard in a white textured finish without backs, side and floors, however should you require these they can be included at the design stage, simply discuss your specific requirements with your designer.

Should you require something even more bespoke we offer a large range of coloured interior options to further enhance your wardrobe.

We can also cater for all wardrobe depths by using front

to back hanging as well as standard side to side in order to get as much out of the space available to you.

As part of our free design service your designer will draw a scale plan for you when carrying out your survey.
